

**12th Annual Meeting of the Canadian Neuromodulation Society
Saturday November 14, 2020**

Objectives:

1. To disseminate knowledge of and updates on neuromodulation techniques for movement disorders, epilepsy, continence disorders, and pain syndromes.
2. To discuss the rationale and indications for frequently performed neuromodulation procedures.
3. To develop a forum for interaction for members and Industry supporters of the CNS from across Canada.

Anticipated attendees: Physician (practicing, trainees) from Neurosurgery, Neurology, Anesthesia and Pain Medicine, PM&R, Urology, and other specialties. Researchers and neuromodulation program support staff including nurses, program coordinators, psychologists, physical therapists, and others.

Venue: The workshop will be conducted over Zoom to allow virtual participation.

Meeting Format: Lectures and oral research presentations on topics of clinical and research interest. Submissions on research and quality assurance projects are invited for short oral presentations (3 slides with 3 minutes for presentation and 2 minutes for questions). **The 2 best presentations will be awarded complimentary registration to attend the 13th Annual Meeting of the Canadian Neuromodulation Society from September 24-26, 2021 in Kelowna, British Columbia. Deadline for abstract submission is November 7, 2020.**

Meeting Fee: None

Instructions for speakers and participants: Please register for the meeting by sending an email to Victoria.Bains@uhn.ca. The meeting will be organized on Zoom and instructions regarding accessing the meeting will be sent by November 10, 2020. **Registration will be open until November 9, 2020.**

Agenda
(Please note all times are Eastern Standard Time)

TOPIC	TIME	FACULTY
THEME: UPDATES ON NEUROMODULATION IN THE CANADIAN LANDSCAPE AND SOLUTIONS TO ADDRESS CHALLENGES IN DELIVERY		
Welcome to the meeting	11:45-12:00	Keith MacDougall (President, CNS)
Neuromodulation for epilepsy and movement disorders	12:00-12:30	Suneil Kalia, Toronto
Neuromodulation for pain: New targets - DRG stimulation New SCS stimulation patterns and PNS	12:30-13:00	Antonios El Helou, Moncton Anuj Bhatia, Toronto
Research presentations (maximum 5 at 5 minutes each)	13:00-13:30	Yasmine Hoydonckx (Meeting Scientific Co-ordinator)
BREAK		
Sacral nerve stimulation (SNS) for overactive bladder, bowel incontinence and pelvic pain	13:45-14:15	Dean Elterman, Toronto
Intrathecal drug delivery for cancer pain and SCS for refractory angina	14:15-14:45	Jill Osborn, Vancouver Vishal Varshney, Vancouver
Annual General Meeting of the CNS	14:45-15:30	A Bhatia (Treasurer, CNS)
CLOSE OF MEETING
